NAME:

Light Study Proof Sheet
Advanced Photo – In Design Layout

EVIDENCE	Mastery (2)	Sufficient (1)	Needs Help - comments
Rendering (14pts possible)			
Layout includes 9 different images each with different lighting situations			
Layout is well balanced and easy to understand			
Font choices for the layout are legible			
Lighting descriptions are narrative in nature and clearly identified			
Descriptions include: #of lights used with type of lighting (reflective, directional, bounced or choice)			
Description narratives also suggest the relationship of the light source's position to the camera or subject: height (level with subject, eye level, high, low) position (left, right) and distance (close to subject next to camera)			
Name and title design are included into layout			
Program Use/ Creativity (8pts possible)			
Illustrated an appropriate use of proportionate image placement to fill the box, images are not distorted.			
Illustrated appropriate use of tool lines around image boxes			
Illustrated a knowledge of Text/Font styles & size variation			
Considered color use as an element in the layout design			
Work Ethic (4pts possible)			
Used class time effectively, logged off the computer			
Saved file to FA server and printed Light Study Proof Sheet by assigned due date.			
Total Points Earned			**/ 26**
